Bootstrap

Git

## PERSONAL PROJECTS

### Netflix Clone (08/2023 - Present)

- Currently Working on a Netflix-inspired ReactJS project, seamlessly integrating live data from TMDB API to ensure dynamic content delivery. Orchestrating user authentication, watchlist capabilities, and an efficient search system, with ongoing online deployment progress.

### DrumKit Website (04/2023 - 05/2023)

- Successfully created a drum kit website using HTML, CSS, and JavaScript, delivering an interactive drumming experience. Implemented responsive design, seamless user interaction, and continuous optimizations.

### MovieApp (11/2022 - 12/2022)

- Developed a movie web app that leverages an API to offer an extensive film database with a built-in search feature, all powered by JavaScript. Created an intuitive interface for users to seamlessly explore and find movies.

## ACHIEVEMENTS

### Problem Solver (2022 - Present)

Solved 350+ questions on GeeksForGeeks

### Participated in Accenture Challenge 2023 (08/2023 - Present)

Building a movie web app using React and a backend involves creating a dynamic platform for users to discover and interact with movies. The app will provide features such as movie browsing, searching, user accounts, and data management.
